

Fall 2017 CDO Workshop Understanding Boundary Crossings to Preserve Professional Relationships

The College recently developed *Draft Boundary Guidelines for Registered Dietitians in Ontario* which clarify the laws and principles that every Registered Dietitian (RD) must know to maintain safe professional boundaries with clients. The *Guidelines* were designed so that RDs can be knowledgeable about the boundary violations that can harm clients.

This workshop will be based on the *Guidelines* and will help RDs examine their dietetic practice and professional conduct to identify the early warning signs of boundary crossings and the steps that can be taken to maintain appropriate professional relationships with clients.

We encourage RDs and dietetic interns to attend this interactive workshop where attendees will be able to apply their knowledge to several case scenarios.

COLLEGE UPDATE

We will also review the College highlights over the past year including activities from the Registration, Quality Assurance, Practice Advisory & Patient Relations Programs. Presenters will be available after the workshops to address further questions.

Register Online

RDs: Login to your Member Dashboard on the College website and click on "Upcoming Workshop" on the right hand side of the page.

Dietetic Interns: email the College to Register:
